Category 2: Overall Evaluation and Reflection on the Effectiveness on Grant Utilisation for Planning and Organising/Participating in Life-wide Learning Activities (Please holistically evaluate the effectiveness on grant utilisation and explore ways to further optimise its use, avoiding an in-depth analysis of each activity)

Areas	Students' Learning Need	Anticipated Target	Evaluation Result, Reflection and Follow-up
	(What is the current situation of students' participation in life-wide learning activities? Overall, what do students need in life-wide learning?)	*(Overall, what specific target does the school expect to meet with the Grant to align with the seven learning goals? How does the Grant support student participation in life-wide learning activities in line with the curriculum?)*	*(Overall, how does the school make use of this Grant to arrange suitable life-wide learning activities for students? For students' participation in life-wide learning, to what extend do they meet the expected target? What aspects have been done well, and what aspects still need improvement?)*
Evaluation & Reflection	The school made use of the assemblies, time after school, and holidays for providing Life-wide Learning activities for students. The activities were rich and covered both co-curricular and extra-curricular activities. The school integrated the 7 goals spelt out by EDB into four school-based domains: academic Attainment, character building, talent development, and spiritual growth. Subject panels and department heads proposed and conducted a wide range of activities for students. Students enjoyed the activities and they were empowered to help organize the activities. Our students, including school team members, won a lot of awards outside school. After evaluation, the school attributed their success to the acquisition of the 12 priority values in school life. The school captured and shared their stories frequently in the Flag-raising Ceremonies and assemblies, etc.	The school made reference to the 7 learning goals when planning CCA and ECA. The school put value education, national education, national security education and technology education as our priority concerns. Students learned selected Chinese cultural quotations as vehicles of values and put them into practice in campus life. Their stories were captured and shared widely inside school and online. The school made use of the funding for cultural exchange with the mainland schools, expanding flag-raising team. Students' national identity was high according to the stakeholder survey. Over 100 students were engaged in STEAM accreditation activities. They attended STEAM classes and sat for external IT-related accreditation assessment. The no. of students enrolled in ICT in senior secondary studies broke the record last year.	The school made well use of the Life-wide Learning Grant to widen the scope of students and nurtured their talents. Students developed both talents and values as well as the attitude of pursuing excellence. That explained why they won a lot of external awards for the school which included sports, music, debate, STEAM, visual arts, performance arts, etc. Due to the cutting of budget from the government, the school will conduct a KISS audit to evaluate what to keep, improve, stop and start to make more cost-effective use of funding provided to keep the level of performance.

Category 3: Overall Evaluation and Reflection on the Effectiveness on Sister School Exchange Activities

No.	Areas	Content of Reflection and Follow-up
1	**Form/Content of the activity**	10月份湖州二中到本校交流，「共上一節課」；6月份高中學生前往湖州二中參觀與交流；7月份天元公學及杭州新灣中學到校交流及進行活動。交流形式多元化，參與學生均表示有助了解兩地文化學學習，享受於活動。
2	**Time arrangement of the activity**	共舉辦四次活動，時間安排合宜，加上本學年到訪浙江時之天氣得宜，交流時間及安排均順利。
3	**Organisation and arrangements of the activity**	交流過程皆兩雙有得益，惟與內地交流時的時間安排往往受限於內地學校的政府批文，故偶見有活動前一週方能確實安排，需要多方溝通與協作，以使活動能具彈性與順利。
