Budget holder : Elly Tam

<u>Purpose of the Grant</u>
The Hong Kong school curriculum aims to promote whole-person development and nurture students into lifelong learners. In terms of English education, developing students' self-directed learning should be emphasised alongside listening, speaking, reading and writing skills. Adopt diversified strategies all along to promote students' language learning through various measures such as curriculum development, production of learning and teaching resources, organisation of student activities and creation of a language-rich environment.

Schools can deploy the one-off grant to procure language learning resources, hire instructors or supporting staff or purchase services. **The grant can only be used for promoting self-directed language learning and enriching the language learning environment in schools.**

<u>How to use the Grant</u>
• To hire instructors or non-teaching supporting staff outside the permanent staff establishment to support staff for assisting in students' language learning and organising English activities as well as competitions.
• Supporting students' language learning, producing materials which facilitate self-directed language learning and designing learning activities beyond the classroom, promoting learning goal and plan setting, self-reflection and self-monitoring of the learning process, thereby cultivating students' self-directed learning capabilities.

• Procuring and/or subscribing to resources for promoting self-directed language learning and/or enriching the language learning environment to enhance students' English learning experiences.
• Purchasing/subscribing to self-directed learning resource packages, language learning/ assessment applications and online learning platforms.
• Purchasing online learning courses.

Proposed Plan for 2026-2027

To enhance English learning experiences outside the classroom, the department will continue with an AI writing platform for S1-S6 students. Certain English clubs need external resources such as books, coaches, and publishing of students'work.
